

Intro

Intro Welcome to Princeton! We would like you to answer this short questionnaire so we can get to know the Class of 2022, a little bit better. We are interested in learning about your time in high school, background, goals, expectations, and attitudes. Princeton has surveyed its entering freshman class for many years and periodically conducts follow-up surveys at various points during students' time at Princeton. We have found the information collected in these surveys to be very helpful in planning university programs and services.

We feel that it is important that you know that your answers on this survey will be linked to your Princeton ID number so that we can accurately compare results from future surveys with the results from this survey. It is equally important that you know that your answers will be treated in a strictly confidential manner. Any findings based upon this survey will be reported in a manner that does not identify individual students. You may skip questions that you are not inclined to answer (but we hope that you will do your best to answer all the questions that are relevant to you). Your participation is completely voluntary. The survey takes about 15 minutes to complete. If you have questions or concerns about the survey, please contact:
