ODOC Advising Survey\_2013

Q1 Academic Advising Survey This survey about academic advising is an opportunity for you to tell us how things are going, and asks questions about your experiences with advising as a student at Princeton. Please be candid and tell us what has worked well for you, and what could be better. Your responses along with those of your classmates will provide us with extremely valuable information as we plan for the future. We feel that it is important that you know that your answers to this confidential survey will be linked to your email address. This link will allow us to combine your answers with other administrative information maintained by the University that is needed for this study (for example, whether you are a BSE or AB candidate), as well as greatly reduce the length of the survey to approximately 10 minutes. It is equally important that you know that your answers will be treated in a strictly confidential manner. Any findings based on this survey will be aggregated and reported in a manner that does not identify individuals. The survey is completely voluntary and you may skip questions that you are not inclined to answer (but we hope that you will do your best to answer all the questions that are relevant to you). Thank you in advance for your cooperation and participation.
