Start of Block: Intro

First Screen Now that some time has passed since you have completed your Bachelor's degree, we would like you to tell us how well your undergraduate experience at Princeton has served you. Your responses will help us improve and strengthen the educational and co-curricular programs we offer. Your insights will help the University to identify and develop new programs that address the increasing complex professional and personal environments in which you work and live. Your participation will help Princeton document and assess the long-term outcomes of our undergraduate alumni. These data will help current and future students understand the wide variety of opportunities available to them. Your answers to this survey will be linked to your email address. This link allows us to match your survey responses with other University-maintained information needed for the study. Linking this information greatly reduces the length of the survey. The survey should take you approximately ten to fifteen minutes to complete. Survey results will not be reported in any form that would identify you as an individual. Completing the survey is voluntary so you may skip questions that you are not inclined to answer (but we hope that you will do your best to answer all the questions that are relevant to you). If you encounter any problems while taking the survey, please contact Jed Marsh at jmarsh@princeton.edu.
